**Re: YES ON HB 4006, I'm a Patient and support my ND**

**Dear House Health Care Committee,**

My name is Sheryl Funkhouser and I am a patient of a Naturopathic Doctor. I would like to share my experience working with this medical provider, and ask you to support HB4006.

There are of course many types of medical providers and models of care but the one I have come to value - and desire to keep seeing - is my ND. My Naturopathic Doctor has been extremely important in my healthcare and has spent time to understand and assist me in taking care of my healthcare needs. I feel personally cared for and have benefited from the time and attention spent on me. I feel I am seen as a person, not just a set of symptoms. It is important to me to feel that my healthcare provider is working together with me to set a path toward healing and improving my overall health.

Unfortunately in Oregon NDs are not being fairly compensated for their contributions to my health and to the healthcare of this state. This puts my doctor on unstable financial ground, and my access to this highly valued care at constant risk.

It is essential that I be able to utilize my health insurance to see my doctor. I cannot afford to both purchase health insurance against major medical expenses and pay out of pocket for my regular and preventive care. That's just not right.

My licensed ND manages a majority of my healthcare needs. Whether it be an annual exam, lab orders, other health screenings and prescriptions. They also refer me to competent providers and specialists in the conventional medicine world as needed. Nearly all of them operate in partnership or in network with other providers, truly ensuring that my health is optimized.

My ND takes the time to teach me about my health concerns and how to best manage my health through diet and nutrition, staying active, overcoming stress, and improving my sleep, in addition to prescribing medications and treatments. This has been very important and beneficial to me.

**I am asking you to please vote yes on HB4006 and ensure fair access to licensed Naturopathic Doctors.**

**Sincerely yours,**

Sheryl Funkhouser
