

Submitter: Nick Haskins
On Behalf Of: Wes Pearson
Committee: Senate Committee On Health Care
Measure: SB1530

My wife and I have been struggling to get pregnant and the fact that we have to come up with money to pay for everything out of pocket is one more emotional blow to deal with. We've worked very hard to be where we're at with good jobs that provide insurance. It seems though that insurance doesn't cover anything to do with infertility. Not being able to conceive naturally is just as serious a health issue as many other covered treatments. Something is wrong with our bodies and that should be covered under health insurance.
