

Submitter: Stephanie Sur
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1521

Please vote no on this bill that yet again, aims to take local control away from communities and put it into the hands of the state and federal governments. We need more local control and less oversight. The stake holders in schools, ie the parents through the school board, should be able to hire and fire whom they see fits what the community wants and needs. This bill takes that control away from them.
