

Submitter: Loree Holmquist  
On Behalf Of:  
Committee: House Committee On Health Care  
Measure: HB4006

Dear House Health Care Committee,

I am a patient of a Naturopathic Doctor who deserves to be compensated fairly for the work he does investing in people's health.

Throughout the years my children and I have been to Pediatricians, MDs, Nurse Practitioners, Naturopaths, and more. We are currently seeing a licensed Naturopathic Doctor. While I have received quality care from many providers our Naturopathic Doctor has taken the time to really dig into the underlying causes for our health issues and figure things out that have been shrugged off by others. Without fair pay by insurance companies more cost is placed on the patient's shoulders which excludes many individuals from seeking the care that benefits them most. Licensed Naturopathic Doctors bring important care that deserves equal payment.

I am asking you to please vote yes on HB4006 and ensure fair access to licensed Naturopathic Doctors.

Sincerely,

Loree Holmquist
