Committee: Senate Committee On Education
Measure: SB1521

Dear Representatives,

Short and sweet. The current rules have worked just fine for decades and there is absolutely no reason to tinker with them now. Leave local communities alone. It's that simple. Leave it alone.

Why? Because your steady march towards authoritarian government will wreck your political future. I know the stats and you know the stats, it's not looking good for anyone who continues on this path. Make the right choice and join with the local communities in rejecting this kind of overreaching policy.

Sincerely, Concerned Citizen Brian Echerer
