

Submitter: Aden Nepom

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1521

The way this is written, is that even if there is just cause to terminate a superintendent, IF they are upholding state and federal laws, that would allow them to stay in their role despite whatever justifiable cause may be present.

This is solving for something that isn't a significant problem, and this solution could in fact cause significant problems down the line.

Please vote this down.
