

Submitter: Jessica Klus  
On Behalf Of:  
Committee: Senate Committee On Education  
Measure: SB1521

I STRONGLY oppose this bill. The state has NO BUSINESS attempting to take the power away from the people. In regards to the Superintendent being fired in Newberg - after years of feeling ignored and watching our school's culture absolutely destroyed as teachers failed to educate and instead chose to indoctrinate, voters had enough and elected a new school board to make necessary and long overdue changes. How dare legislators and lawmakers try to take that power away from the parents and citizens of our school districts. If this becomes law, superintendents will no longer feel accountable to anyone. That is not in the best interest of our children and not at all the way our government is supposed to work. The people will be forced to continue to watch our education system crumble due to nonsense like this, our children will continue to graduate with a sub par education and nobody will be served well. How about instead protecting employees that the citizens want removed, the state works towards IMPROVING the education system in tangible ways. You should all be ashamed of how much money you spend on education and how horribly you continue to fail. Stay in your lane and OUT of parent's way.
