

February 3, 2022

Chair Bynum, Vice Chairs Noble and Power, and members of the House Judiciary Committee,

Thank you for the opportunity to share my thoughts on 4142.

I am not in the healthcare field but many of my family members and friends are. It really confuses me as to why there isn't already a law on the books that protect hospital workers. Every person I know that works in a hospital has a story, and not just one story, many stories. I don't want to speak for others, I think they have already made clear how important this bill is.

I ask you today to please listen to what hospital workers share both in oral and written testimony. Please vote yes on this bill. It is important to protect those who protect us.

Thank you for your time,

Katie Boshart Glaser
