

Submitter: Elizabeth Cundiff

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1521

The Oregon legislature and The Oregon Public School Industrial Complex is once again trying to flex its muscle and remove the rights of parents and tax payers to control the education of their children. I cannot believe the orchestrated attempt by public officials and law makers to actually dumb down the curriculum and not challenge our young people over the last few years. Oregon public schools are currently rated in the lower 1/3 in the nation. Clearly, something is not working. If SB51 passes, parents through their school boards would not be allowed to hold those responsible, such as Superintendents for any misconduct. I and many others do not support SB51, and it must be stopped now.
