

Submitter: Tami Garrett

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1521

Superintendents must remain accountable to our School Boards and Parents. For the sake of our children best interests, such Positions of Power can not go unchecked. This Bill encourages mediocrity at best and abuse at worst. There's a process in place that should remain. If Parents don't retain recourse our Public schools will lose more and more students as they seek alternatives. This hurts the entire community and especially the lowest income families who are already struggling. That's unacceptable and unwise.
