

Submitter: Mark carlton

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1521

The superintendent is a sensitive position and should not be protected at all. It is the one position the board has control over, and it's a board, not an individual that makes the decision to terminate. This adds a layer of review to the process already. The board has very little influence on policies and regulations as it is. Control of the superintendent is the only way a board can steer it's district and that should not be compromised by adding a layer of protection to the superintendent from the board.
