

Submitter: Michele Stroh
On Behalf Of:
Committee: House Committee On Health Care
Measure: HB4081

Dear all,

I lost my son in 2020 due to an OxyContin addiction that started 11 years earlier post surgery. He bought what he thought was an oxy but ended up being pure Fentanyl.

We must do better to give avenues of help of the addiction created by Purdue Pharmaceutical.

We are on target to have explosive amount of deaths due to opioids.

His life mattered.
