

Submitter: Steven LaTulippe
On Behalf Of: Free Oregon
Committee: Senate Committee On Education
Measure: SB1521

Seeing that my first testimony was conveniently censored, I'll try again. This proposed bill strips parents of rights to protect their children from school superintendents who may completely ignore parents wishes, and a delay in their removal places children at risk for propaganda, anti-American indoctrination, or some other crimes that have become prevalent in all public schools. Please stop this bill immediately, and empower elected school boards that should be promoting the will of the parents whose responsibility is to guarantee their children are properly educated, not brainwashed.
