

Submitter: Hallie Campbell

On Behalf Of:

Committee: Senate Committee On Natural Resources and Wildfire Recovery

Measure: SB1546

I oppose this completely. This school already has 10+ research forests, why do they need another, especially an old growth forest? Why are we adding another forest to their log, when they are plenty they can choose from that they already own. Why is this something we are spending money on still, when forests are in grave danger? This is especially true for an old growth forest such as this one.
