

Submitter: Mary Bramucci  
On Behalf Of:  
Committee: House Committee On Revenue  
Measure: HB4115

Dear Sirs,

I am a lifelong Oregonian and a PERS member for more than 40 years. I am concerned, appalled to find that Oregon money/investments are not TRANSPARENT. We have every right to know how are money is being invested. I have many concerns re investments, but especially any that may continue to undermine our concerns for the climate. In these tenuous days, it is critical to support scientists and others fighting for our climate and welfare. The heat wave of 2021 should never be repeated. Please make Treasury investments transparent and responsible.

Mary Parker Bramucci
