

Submitter: Herbert Everett

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1589

Senate Committee On Energy and Environment members,

As a long time canoeist, often on the Willamette, I think this bill makes sense in at least creating limits and balancing interests and addressing serious safety concerns.

The river should be a place for everybody to enjoy in a safe and healthy fashion.

Nature also very much needs the protections afforded by this bill.

Thank you,
Herbert Everett
