On Behalf Of: Mr Oregon SUPPORTS SB 1506
Committee: Senate Committee On Finance and Revenue
Measure: SB1506

Saturday; [02.05.22]

I SUPPORT [SB1506]

Even though [SB 1506] is a tad-bit economical on what "Marijuana Items" are to be taxed, the 'sale' of Marijuana plants referred to as 'clones' (which are derived from propagation methods) is a very lucrative market that requires more regulation.

Keep in mind, illegal Marijuana sales and growing operations are costing the General Fund more money each year for law enforcement. A dedicated mechanism for staffing and sustainable funding the law enforcement should be established via the taxes levied on the Marijuana Industrial Complex.

Keep up the good work! (But, more effort is required.)
