

Submitter: Roberta Robles

On Behalf Of:

Committee: House Committee On Economic Recovery and Prosperity

Measure: HB4015

Please make amendments to specifically include the newly forming cannabis and mushroom therapy programs.

These new industries need loans to take off.

Specific inclusion in legislation will send a clear signal to administrators to be more inclusive of these new ventures that voters supported.

There are a lot of State employees who go specifically out of their way to make doing businesses in these fields. The legislature needs to send a clear message to be more inclusive of these new industries.
