

Submitter: Martha Harper
On Behalf Of:
Committee: House Committee On Human Services
Measure: HB4079

This bill would only cause more problems for our state. We are currently so overwhelmed with people who refuse to take part in being a responsible citizen. I am a hardworking single Mom who busts her butt because that is what you have to do. It's disgusting to me what has become of my beautiful state. So many people are looking for handouts and not willing to get off their butt let alone stay clean long enough to maintain any type of employment. Why should those of us who choose to work pay for those who don't want to. How is decriminalizing drugs working out?

This state keeps enabling people to do less and put their hand out looking for the government to save them. Look at what all of the homeless camps look like and the thousands of dollars spent to clean up their messes constantly. The EBT card that you can buy energy drinks, soda, and junk food with. Or water to pour out and cash in for whatever else they want. Health care....The systems we have are already broken enough please stop trying to add more to it especially at a cost to me and thousands of others.

We have so many help wanted signs, literally everyone is hiring. Passing this would be a huge mistake for our state.

I have a lot of questions about how things are funded in this state and I am sure things would be "re-allocated" elsewhere from this only to have us working class hit with yet another tax.

Oregonians are exhausted and you all seem to forget that you work for us. Stop trying to rob from the hands that feed you.

Sincerely,
One fed up WORKING OREGONIAN
