On Behalf Of:

Committee: House Committee On Human Services

Measure: HB4011

I OPPOSE HB 4011

The Child Welfare Cultural Equity Program connects children served with child welfare service providers who meet children's cultural diversity needs. The Program gives preference to applicants who have been recruited through the Child Welfare Cultural Equity Program. This kind of matching cultures is not teaching children they live in a multi-diverse culture and teaches segregation is their plight.

Mental health care providers report that the covid surge and mandates have negatively impacted their workforce. Clinics are hit with vacancies and new modernized health practices and technology. Should taxpayers fund replacement staff that left because of illegal mandates?
