On Behalf Of: Farmers and legal visa employees  
Committee: House Committee On Business and Labor  
Measure: HB4002

To Whom It May Concern:

Please accept testimony in opposition of HB 4002. If you have ever worked in farming you know it is seasonal and dependent on when a crop is ready. Employees know this and work during these times as long as it takes, to get crop properly harvested. Farming will never be a 9-5 occupation, don't try to turn it into one. Stop your over reach, please focus on port issues, illegal immigration without proper work visas, which hurts the employees that are here properly and closing the borders to unlawful entry if you need something to work on. Preserving farmers water rights from being stolen by illegal grow operations would also be a useful issue to work on.

Respectfully,  
Stephanie M
