Of:

Committee: Senate Committee On Judiciary and Ballot Measure 110
Implementation

Measure: SB1574

Good Morning and thank you for taking the time to review my written testimony in support of SB1574. This is an incredibly important fix that will benefit all sexual assault survivors. This bill ensures that SANE forms are included in the SANE kit, which benefits and protects both reporting and non-reporting survivors. Ensuring the SANE form is with the kit ensures non-reporting sexual assault survivors maintain their right to report at a later date with a fully intact SANE Kit. As part of the bill, improvements to the existing SANE forms were made creating better documentation which benefits the survivor in the long run. Thank you so much for considering such an important bill for sexual assault survivors.
