

Submitter: Lena Matthews

On Behalf Of:

Committee: House Committee On Human Services

Measure: HB4079

I am writing to express my opposition the HB 4079. Under all the current mandates and this I am tempted to move to a more favorable state. This bill gives me another reason to consider such a move. I believe this will have devastating effects on small businesses, which are already suffering due to current mandates.

This will also open the way for a standard sales tax.

Therefore I request that you please vote NO on HB 4079
