My feedback on this proposed bill: NO SALES TAXES!! Period. Oregonians have consistently voted down sales taxes in the past. This is total lunacy that legislators would even consider bringing forth this bill. I have lived and worked in Oregon my entire life. Please hear me clearly - do not advance any more social welfare programs! We can't afford them, nor do they make us a stronger state.

Laws/regulations that continue to divide communities do not help - in fact, these types of bills continue to fuel the simmering anger throughout the state - and that only makes things worse!!! It's time that the Oregon legislature wakes up and realizes that Oregon is being destroyed by inept social policy!!
