

Submitter: Debbe Klaja

On Behalf Of:

Committee: House Committee On Human Services

Measure: HB4079

Last I knew we, the people, had to vote on any new taxes?? Is this legal? Or another "emergency" excuse?

People are already getting welfare benefits, food stamps, and other benefits.

You are not helping them get out of the hole they are in. Only gives them more money for more drugs.

You need a PROGRAM with services and money you all ready have to screen, to detain, house, help them, like in a mental health facility.

Let's help them and clean up the streets, not throw more money at them and PRETEND you are helping them!

Thank you.
