

Submitter: Robert Egner

On Behalf Of:

Committee: House Committee On Human Services

Measure: HB4079

I strongly oppose this legislation. We Oregonians have voted down sales tax time and time again. We already have property tax and income tax both of which have us in the top 5 taxed states in the US. Our legislation is taxing us out of living in Oregon and it needs to stop!!

When the Supermajority approved HB 3115 they knew full well we couldn't fund it. Now they are trying to build funds for their failures though taxation without representation. Its time Oregonians tax the legislators but not with funds and instead with their seats. The tyrannical ways of the Supermajority must stop!!

I am calling on all sides to put a full stop to this bill before we are at a point of no return and things can no longer be handled legislatively.
