On Behalf Of:

Committee: House Committee On Business and Labor

Measure: HB4002

For those who have never operated or worked full time in an agricultural business, ie: farmer, meat producer, crops, eggs, etc etc. and basically anything grown or produced to feed the masses, it would be difficult to understand a typical day on the farm. You know, the old saying; Make hay while the sun shines. Because Mother Nature doesn't care how many hours it takes or how tired anyone is.

That's how HB 4002 is written. Like there's no comprehension of the life of a farmer. If somebody goes to work on a farm or learn about farm life, they had better expect to work long hours when required. Otherwise, there are a lot of other jobs out there to do. Stop coddling people! Those who love farming expect to work hard.

VOTE NO ON HB 4002
