

Submitter: Lilly Roe

On Behalf Of:

Committee: House Committee On Health Care

Measure: HB4039

I oppose HB 4039. OHA should not receive any more power or money for data collection. They have abused their power and this needs to end now. We want this kind of power in the hands of the legislature where officials are elected and can be removed for not listening to the voices of the people. OHA is unchecked and too powerful. Oregonians want accountability and a voice.
