

Submitter: Shelli Huston

On Behalf Of:

Committee: House Committee On Human Services

Measure: HB4079

Oregon House Committee:

This is a terrible idea for all Oregonians. This state has already thrown so much money at providing meals, housing, drugs, and actual cash at these individuals. It is NOT WORKING!! You are driving people to go out of business or just plain leave the state. I am tired of these individuals vandalizing, loitering, and driving my property values in the toilet. I am a business owner in Oregon and I have had to spend so much money on security to combat this issue. These people need real help...NOT MONEY!! Lets look at rehab, jail, and hospitals to get them the help they really need...not cash and housing that is nicer than some of the honest tax paying citizens live in. Get a BACK BONE and make the tough choice for honest help, not a band aide that might get you social welfare votes!! Let us bring back family values to Oregon!!

I am a very frustrated business owner and Oregonian!!
