Measure: HB4079

I am writing today to express how deeply opposed I am on HB 4079. A sales tax is the wrong answer unless our state was willing to ride our state income tax. People are struggling now more than ever, and to add any further taxes on the backs of Oregonians will cause more devastation. Raising taxes can not always be the go to for answers. So please, Listen to your constituents and do not pursue this avenue. Thank you for your time.
