

Submitter: BARBARA ARNOLD

On Behalf Of:

Committee: House Committee On Business and Labor

Measure: HB4002

Agriculture is not and has never been an 8-5 / 8 hour day!

When crops are ready or when cows are calving they don't quit ripening/curing or calving at 5 pm.

Agriculture is dependent on being able to get the job done.... Whether it takes an hour or 24 hours... there is no clock when the work needs done.

But agriculture runs on a narrow profit margin. Paying OT wages would not be feasible in many areas of ag!

That is why I oppose this bill and

I have been in agriculture my entire life.

Sincerely

Barbara Arnold
