Committee: House Committee On Human Services

Measure: HB4079

**STOP!!**

Please do not vote for more taxes to help the poor, homeless, illegals or pregnant women. Lets focus on getting Oregon back to work in the private sector and that means helping the able homeless back to work. Let's Stop funding homeless, poor, illegals and do what we can to get the out of the state if their illegal, back to work if poor or homeless and treated for drugs if they are druggies and if they are mental issue not due to drugs getting proper help for them.

It is really simple to understand on how to do this with out creating more taxes.

Please be human and stop the free handouts creating more trouble!
