

Submitter: Peter Hall

On Behalf Of:

Committee: House Committee On Business and Labor

Measure: HB4002

I support this bill having been a culinary worker at a resort. Resort workers, like agricultural workers, are needed to work long hours over a short time period. Much of their time has them working much shorter hours, not enough to get by on. Paying the overtime hours does create a massive increase in labor cost, but considering the lower costs over much of the year, this is appropriate and necessary. There is a problem of cost because of big business control of the agricultural sector, so that these businesses will not care about the farmers cost and will still demand the farmer sell at a lower national rate. It is important as part of this change to also be on the farmers side in their battle against agricultural monopolization of the market.
