

Submitter: Peter Fasolino

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB4151

I wholeheartedly support this bill. This practice is antiquated and based on a system that now has many safety features and rarely fails. Allowing Oregonians to pump their own fuel will reduce wait times at stations, reduce costs for fuel stations, and during the labor shortage allow stations to keep all of their pumps open. Please pass this bill and allow adults to pump our own fuel.
