

Submitter: Alyssa Boston

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1589

BIG wakes are a BIG problem. This bill is a no-brainer, easy solution that is backed by too many experts to ignore. Please don't ignore your residents' voices when we call out for the health of our beloved river! The waterways in our valley should be kept sacred and beautiful, and open to all to enjoy! Just no big waves please, go out to the Columbia for that.
