

Submitter: Sharon harvey

On Behalf Of:

Committee: House Committee On Human Services

Measure: HB4079

Sales taxes hit everyone, but burden the lower incomes proportionally worse. We believe that you should not want to create a new tax during a time when far too many Oregon families are still struggling to make ends meet. We bought our home in Oregon and were willing to adjust to having an income tax because there was no sales tax. HB4079 violates the public trust that Oregon has had with its citizens for so many years. Needless to say that we believe you are knowingly creating another dependent class in Oregon with no appreciation for the consequences.
