

Submitter: Granella Thompson

On Behalf Of:

Committee: House Committee On Human Services

Measure: HB4079

I am strongly against any sales tax as the people have voted against that at least 9 times. The productive workers do not need their hard earned money taken by government and handed to those on drugs, alcohol, and wasted on lottery tickets. Oregon has plenty of money and do not need more of people whose share of their income keeps getting hit harder and harder each month. I do not believe this really helps anyone. I am totally opposed to this.
