

Submitter: Laurel Hines

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: HB4080

I oppose this bill. It is unlikely that such predator damage control districts would use up -to- date science on best management of predator issues. They would likely hire Wildlife Services, which has a history of cruel and excessive killing of wildlife, often killing many non-target animals, and not using the best science on how to help landowners effectively avoid or reduce wildlife problems in the long term. Please do not support this bill.
