Measure: HB4002

This bill is likely to kill local family owned farms which make up over 90% of Oregon farms. It will also likely put Farm owners against the workers and therefor cost jobs and inevitably cost Oregonians the necessary quantity of produce, grains etc and also raise the price of products themselves.

I strongly oppose this bill and think it is necessary for all of our legislators to do the same. Oregon can not continue losing jobs, job markets and businesses. And quite frankly I don't believe the US can either. We produce large margins of these products that go to other states across our nation. This bill is not the answer.
