Committee: House Committee On Human Services

Measure: HB4079

I am strongly opposed to HB 4079. We do NOT need any type of Luxury tax, sales tax! This will for sure pass onto other items deemed a "Luxury". People in Oregon are already struggling to survive!

The concept and purpose for this tax is economically dangerous. If you want to help families, try limiting inflation, lower food costs, gas prices etc. The "Inflation Tax" is hurting us all, especially the poor.

Please do NOT enact this bill or any concept of it!

Thank you,
Dave Evans
