

Submitter: Dennis Hoerner

On Behalf Of:

Committee: House Committee On Human Services

Measure: HB4079

The documented benefits of the federal Child Tax Credit during this pandemic proved what a huge difference a small amount of direct cash can make in the lives of people at the lower end of our skewed socioeconomic system. Every small amount helps! Basic income support gives people dignity and confidence and helps to reduce poverty. This bill will provide greater fairness and justice for low-income families and a better quality of life. Please vote Yes on HB 4079.
