

Submitter: Jay cagnina

On Behalf Of:

Committee: House Committee On Human Services

Measure: HB4079

Dear Committee,

The sad truth of our economy is that there are simply not enough jobs for everybody a lot of the jobs that are there do not pay enough money to live on. We have often taken an approach of tax cuts for the very wealthy to stimulate the economy. Anyone who has ever grown a plant knows that you water the roots. Putting money in people's hands will create many many jobs and this is certainly not enough money for people to live on.

The objection has been raised that some people may waste the money. Even if they spend it unwisely they will still be putting money into the local economy which will stimulate the economy and create jobs.

In short, this bill does not just put badly needed money into the hands of low income people, it is a job creation package which will have many unexpected benefits.

I ask you to vote for this bill

yours truly,

J.F. Cagnina
