

Submitter: Osmar Ayala
On Behalf Of: Tanasbourne West Chevron
Committee: Joint Committee On Transportation
Measure: HB4141

As a fuel station operator and due to covid 19 as part of my daily routine now I have allocate time to explain our customers why they can not pump their own fuel on top of that employee shortage makes a lot more difficult go through our daily operations, no having to worry about keeping gas attendants at the pumps not only will allow us to focus on providing a mush better service to our customers but also will make our customers happier that they will have the freedom to pump their on fuel and will make them feel a lot more safe knowing that no one its getting close to them nor touching their personal or business vehicle, also having less stuff will allow us to provide a higher pay rate to our stuff and provide better employment benefits as well.

Thank you...
