Measure: HB4002

All those supporting this bill obviously have never worked on a farm. Virtue signaling is one thing, reality is another. Remember "make hay while the sun shines"? How about if you come help during lambing/calving season when it is cold and miserable and if you don't get the babies warm and dry soon after they drop they freeze to death or the predators get them. Real agriculture does NOT fit into a 40 hour week - sorry wolk folk - just vote NO!
