

Submitter: David Wall  
On Behalf Of: Mr Oregon OPPOSES HB 4106  
Committee: House Committee On Business and Labor  
Measure: HB4106

Monday; (02.08.22)

I OPPOSE [HB 4106].

I would not want my appendix removed as a matter of convenience and or expediency by anyone who is not a licensed physician.

Now, if I was in the United States Marines, involved on the battlefield and was severely wounded, I would gladly welcome the medical attention given to me by a United States Navy Corpsman (even a displaced United States Army Medic would be sincerely welcomed).

I guess a case could be made in Portland, a city governed by abject morons, who permit open warfare in the streets and neighborhoods, innocent wounded people would be served by anyone having the slightest medical skills to save their lives.

For rural Oregon, Fire Departments and or Districts has trained Paramedics who can, to the best of their ability and the nature of medical emergency, can and do provide medical assistance as the wounded person(s) are transported to a medical facility for treatment.

David S. Wall  
Mr. Oregon CONCURS-Go Navy!...GO Army!
