

Submitter: Megan Black

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure: SB1549

As an RN during this pandemic I have never been more mistreated as a nurse than any other job/career I have ever had. Rather than cap CEO and admin pay, you wish to punish travel nurses such as myself by regulating how much I'm allowed to make for my own well-being and livelihood. See what happens if you cap our pay. The staffing is already horrendous as it is; it'll be even worse. Myself along with countless others will quit. Have fun running your hospitals.
