

Submitter: Tammie Murray

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB1528

Commission on Brain Injury should be left to a teaching medical facility to organize, with grassroots effort this disability could become a study and/or department within a medical educational environment. I see no reason for the legislature to become involved and form a commission for such a specialized field of medicine. Grassroots non-profit needs to form an alliance with a hospital medical group that would be more in line with progressing the cause that may advance within the brain injury field.
