

Submitter: Charlie Waterman

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: HB4080

I strongly support HB 4080. This bill provides user funding for control of wildlife that kills or harms the users assets. The control is accomplished by professional federal employees. The public gets a benefit from these employees if they are caused bodily harm by wildlife or their animals are killed. How can one not support a bill that allows funding paid by its users. I am a 75 year old land owner that must have this bill passed in order to keep operating.

Thank you for your support of HB 4080.
