

Submitter: Gabriel Buehler

On Behalf Of:

Committee: House Committee On Rules

Measure: HB4133

This will only lead to more voter fraud. How many Social Security Numbers are used illegally each year? This is a very bad idea. To top it off having a 3rd party be involved in anyway subverts the voter. Go back to paper ballots and show identification to vote. Audit the vote every election. The legislature spends money like rain falls in this state and taxes us to poverty! It's the least you could do with our money you steal from us.
