

Submitter: Linda Bounds  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HB4133

As a sacred right, voting in the state of Oregon and all of the United States of America, is reserved for American citizens. It is an honor and a responsibility shouldered by each citizen independently. Allowing registration online using the last four numbers of a social security number does not guarantee proof of citizenship. Also allowing third party organizations to register other people swings the door wide for many opportunities for voter fraud to occur. It is extremely important Oregon conduct registration and all areas associated with voting, with the highest of integrity. This bill does not meet those standards.

I oppose HB4133
